Meeting Agenda

Location: 3507

Date: 10-05-06

Time: 10:00

Facilitator: Jonas Jacobsson & Christian Bergström

Participants: Jonas Jacobsson & Christian Bergström

1. Objectives (5 min)

   Decide what should be done next.

2. Reports (15 min)

   Iteration 1 done and presented.

3. Discussion items (35 min)

   How should the visuals be improved? What should the AI be capable of?

4. Outcomes and assignments (5 min)

   The AI has to be able to defend in all directions. It should also have some offensive capability. Most calculation from the defense part should be reusable in the offensive part. The pins obscure too much of the board, this has to be addressed.

5. Wrap up

   Next meeting: 10-05-11.
